

GOOD PRACTICES 2020

Grupo Antolin and UNICEF, united for a better tomorrow

Public-private collaboration through partnerships is essential for overcoming the challenges of the future. Grupo antolin, aware of its role in the development and progress of society, wants to go further and leave its mark on future generations. It has collaborated with unicef since 2012, as a partner company in its campaigns, with the aim of helping to guarantee the rights of children and young people throughout the world.

another part of this commitment involves sharing values among all the professionals who form part of Grupo antolin and extending these to their close relationships. For this reason, Grupo antolin organizes a charity Christmas card contest every year for the children of its employees around the world. For every card received, the company donates an amount of money to causes such as fighting hunger or promoting education and health in different parts of the world. In 2020, thanks to the help of these children and their drawings, 27,100 children and young people were able to receive the measles vaccine.
